LeetCode | @saketh169

Professional Summary

Computer Science student at IIIT Sri City interested in MERN stack development. Proficient in programming using Java, C, and Python with 500+ problems solved on LeetCode. Experienced in building full-stack applications, built backend applications with Node.js and Spring Boot, and worked with machine learning and deep learning models.

Work Experience

- Full Stack Developer Intern** 07/2026 – 08/2026
Code My FYP Virtual
- Developed a School ERP system with role-based access control for super admins, principals, teachers, and students
 - Collaborated in a team of 3 using GitLab to build scalable components and ensure industry-standard code quality
- Full Stack Web Development & AI-Integrated Marketing Intern** 07/2025 – 08/2025
Myna Seva Foundation Virtual
- Designed and customized websites using WordPress, Wix, and Google Sites while applying basic UI/UX design principles
 - Created promotional visuals using Canva to support community initiatives and improve online engagement

Projects

- Nutri Connect Web Application** | MERN, Render, MVC | Vercel | GitHub 01/2025 – 06/2026
- Developed a MERN stack web app with 30-minute slot booking and 2-week advance scheduling
 - Implemented an MVC backend and React frontend with Redux state management and Tailwind CSS
 - Documented APIs with Swagger and integrated a CI/CD pipeline for deployment
- Image Copy Detection for E-Commerce** | CNN, Siamese Network, OpenCV | GitHub 12/2025 – 05/2026
- Built an image copy detection system using a ConvNeXt-based Siamese/metric-learning network to identify original and edited duplicate product images
 - Evaluated robustness across multiple attack variations and optimized search using HNSW/ERNG graph indexing for faster retrieval on large image banks
- Hybrid Load Balancing for QoS in Cloud** | AWS, Python | GitHub 09/2025 – 12/2025
- Created a hybrid Round Robin and ACO load balancing algorithm, improving overall system efficiency
 - Tested scaling from 20 to 50 cloud servers handling 100 to 2,000 tasks, using DynamoDB and CloudWatch for monitoring
- IoT-Based Smart Jacket with ML for Real-Time Analytics** | IoT, ML, Python | GitHub 09/2025 – 12/2025
- Integrated 6 physiological sensors into a wearable smart jacket to monitor vitals, utilizing 3 Kaggle datasets
 - Trained ML-based real-time anomaly detection models, integrating mobile and cloud alerts
- *Other projects can be viewed on my E-Portfolio.*

Technical Skills

Programming Languages: Java, C, Python
Web Development: HTML, CSS, JavaScript, EJS, MERN Stack, Spring Boot, Bootstrap, Tailwind
Tools & Platforms: Linux, Git, GitHub, Docker, Postman, Swagger, CI/CD, MySQL, Matlab, Vercel, Render, AWS
Libraries: Pandas, Matplotlib, Seaborn, OpenCV
CS Fundamentals: Data Structures & Algorithms, Operating Systems, OOP, DBMS, Computer Networking, Cloud Computing

Education

Indian Institute of Information Technology, Sri City Chittoor, Andhra Pradesh
Bachelor of Technology in Computer Science and Engineering – CGPA: 9.38 08/2023 – 06/2027

Achievements

- Academic Excellence:** Awarded Certificate of Academic Excellence annually for consistently maintaining a 9+ CGPA
- Agentica AI Hackathon 2025:** Secured 1st Runner-Up for developing an AI document system
- LeetCode:** Solved 500+ problems, reached a 1436 contest rating, and earned 50 & 100-day active badges in 2024–25
- Campus Ambassador (Techfest, IIT Bombay):** Ranked 172nd out of 1000+ ambassadors with 7500 points
- CodeX:** Secured 11th place in the Gradient Club DSA Coding Competition during Utkrishta Technical Fest
- Google Cloud Skill Boost:** Completed advanced labs and Arcade games over 6 months, earning Arcade Trooper Tier rewards

Certifications

- Career Essentials in Generative AI** – Microsoft and LinkedIn Learning (06/2025)
- Python Fundamentals for Beginners** – Great Learning

Co-Curricular Activities

- Decoration Team Member** | Abhisarga Fest 02/2025, 02/2026
- Designed and set up creative decorations to enhance the visual appeal and festive atmosphere of the college fest
- Independence Day Meraki Team** | College Event 08/2024
- Collaborated to set up thematic arrangements for college Independence Day events to create a patriotic setting
